

NOTICE REGARDING COVID-19 AND THE BUILDING DIVISION

Due to the impact of Covid-19, please be advised that the building inspection division is closed to the public for two weeks as are all city buildings. We are available by telephone (303-538-7250) and email (buildings@thorntonco.gov). You can still submit applications via the portal or via email. The inspectors are not doing any inside homeowner inspections, only outside with permission to enter the yard and no personal contact. They are doing new residential and commercial inspections, however, the property must be accessible either by lockbox or left open as no personal contact is allowed. No workers can be inside the building being inspected. All inspectors' comments will be visible on the portal. You can also email them as there will be no telephone access at this time.

Thank you for your understanding.
